

Dear customers, business partners, and friends,

Just as we've done in previous years, we're supporting a project that's close to our hearts this festive season. This year, we've selected Woodcraft. Woodcraft supports the establishment of a carpentry training workshop in Cambine, Mozambique.

About a year ago, work began to renovate premises that had been unused for many years in order to set up a carpentry workshop. Some 75 students are now learning how to work with simple tools—saws, chisels, and planes—and with modern machines. Besides serving as training equipment for the students, the intention is that the modern machines will also be used to produce furniture, windows, and doors. The aim is to become financially self-sufficient and no longer dependent on outside help.

Our donation this year will pay, among other things, for the flight of a master carpenter, who will train the teachers and pupils on the new woodworking machines.

Our donation this year will pay, among other things, for the flight of a master carpenter, who will train the teachers and pupils on the new woodworking machines.

We would like to thank you for working with us in 2016 and wish you a Merry Christmas and a healthy, happy, and successful 2017!

Feliz Navidad, frohe Weihnachten, glaedelig jul, vrolijk Kerstfeest!
